I AM

I am a thinker and disseminator of information. I am capable of preparing content to be shared to audiences across multiple platforms. I create photographic essays combining audio, video, and still images and ready for web publication. I am a living deadline. I support the advancement of the Internet and hope to use it to help evolve communications. I manage content creation for web sites through design and structure. I am resolute in my professionalism.

INTERESTS

Interested in pursuing a creative role in fields related to multimedia, photography, journalism, general reporting, photojournalism, web development, graphic design, research, publishing, and new media. Desire to communicate to audiences through visual and written publications with creative and effective techniques.
